PROFILE

I am a polyglot programming enthusiast and a developer. I have done work which ranges from GPGPU programming to voice based virtual assistant. I prefer to have a general idea of various fields but I specialize in concurrency and FRP paradigm, with my strongest language being Scala.

Along with that I take keen interest in web backend and have got quite a grip on NodeJS.

EXPERIENCE

ANDROID DEVELOPER

LEAF WEARABLES | AUG 2014 - MAR 2015

- Developed the android app and built an offline navigation system which relied on google maps and SMS.

LEAD DEVELOPER

AMETHYST LABS | APR 2015 - CURRENT

- Built a reactive offline network of phones using WiFi and Bluetooth.
- Spearheaded the project and handled branding and design.

EDUCATION

BACHELOR OF TECHNOLOGY

DELHI TECHNOLOGICAL UNIVERSITY | 2013 - 2017

SKILLS

- Web backend
- Android Development
- FRP paradigm
- Concurrency and Scaling
- Intermediate Linux experience
- Node.JS
- Basic Elixir and OTP
- Creative Coding(Processing)
